Response to Amendment

1. Applicant's amendment and response filed 16 NOV 2004 is acknowledged. Claims 1-13 and 17-32 are pending.

Response to Arguments

2. Applicant's arguments filed in the above-mentioned response, with respect to the rejection of claims 1-13 and 17-32 under 35 U.S.C. 103(a) in the Office action mailed 16 AUG 2004, have been fully considered and are persuasive. Upon careful review of Yamaya, it is the examiner's position that, while this reference suggests mixtures of acrylate monomers, it does not teach an acrylate *copolymer* solution that is the *reaction product* of the recited components. Consequently, the rejection of these claims has been withdrawn.

Allowable Subject Matter

3. Claims 1-13 and 17-32 are allowed.
4. The following is an examiner's statement of reasons for allowance: The closest prior art was applied against the claims in the prior Office actions. As noted above, the examiner has withdrawn the rejection based on this prior art. Consequently, the prior art neither teaches nor suggests applicant's claimed composition comprising an acrylate *copolymer* that is the *reaction product* of the recited components.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
